Regular Republican Candidate.

POR MAYOR.

MATTHEW G. EMERY.

THE COMING ELECTION.

But little over two weeks remain before the citizens of Washington will be called upon to record the verdict which has already been found against the present city administration. But because the people have decided that there shall be a reform is no reason why any man should absent himself from the polls or fail to cast a ballot for the long-needed reform.

Every citizen who has the least interest in the welfare and prosperity of our city should cast his ballot in order to teach, not only the present but future evils that our funds cannot be squandered, our rights trampled upon, and our intelligence insulted without calling down upon the offenders the most withering rebuke.

It is not enough that the corrupt ring is cast out by a majority of a few hundred thousand, but in view of the recklessness of their conduct, and the greater violation of public trust which it would inflict on the city if it were to go back to its old ways, we call upon all who have the least interest in the welfare and prosperity of our city to record their verdict in favor of the new administration.

RATIFICATION.—We urge every club flavor-

able to Emory to prepare in their best way to assist in the coming Republican ratification on Tuesday evening next.
